

Queens Museum of Art

**Find:**

**Dragonfly Library Lamp, 1900-1910**

*Dragonfly Library Lamp, 1900-1910. Tiffany Studios, New York. Design attributed to Clara Driscoll. Leaded glass with brass filigree, bronze. 25" x 16". Photo courtesy of The Neustadt Collection of Tiffany Glass, New York City*

Turn this card over to find a hint about where I am!

**COOL fact:**

**Dragonflies are one of the fastest insects in the world. They can move as fast as a car!**

Cool Culture® provides 50,000 underserved families with free, unlimited access to 90 cultural institutions – so that parents can provide their children with educational experiences that will help them succeed in school and life.

**Hint:** Take the elevator to the second floor of the museum.

**COOL!  
YOU  
FOUND  
IT!**

**Now, Explore!**

**DURING YOUR VISIT:**

- Pretend to be an insect! Gently “fly” around the gallery, and look for the dragonfly with red eyes.
- Count the number of wings on the dragonfly.
- Name the colors you see.
- Look around the room for other artworks inspired by nature and the outdoors. Can you find flowers, leaves, or branches?

**Before and After Your Visit:**

- Be an artist! The artist that made this lamp was inspired by the outdoors. What inspires you? Find a tree or a flower, and draw it. (Don't worry if your child's drawing doesn't resemble reality yet. “Scribbling” will naturally develop into making pictures when your child is ready.)
- Natural art: Place a piece of paper over a leaf. Lightly rub the side of a pencil or a crayon all over the paper. Notice how the crayon picks up the raised areas of the leaf. Can you find straight, curved, or zigzagged lines?

**The Queens Museum of Art** is a local international art museum in Flushing Meadows Corona Park, with contemporary art, events and educational programs reflecting the diversity of Queens and New York City.
